FUHSI REGISTRY STAFF ATTEND UNILORIN 4TH ANNUAL REGISTRY LECTURE

The Registry staff of the Federal University of Health Sciences, Ila-Orangun (FUHSI), have participated in the 4th annual Registry Lecture organised by the University of Ilorin, Ilorin, Nigeria, on the 30th of April, 2024.

In the bid to strengthen the Registry Department of the University, the Management of FUHSI sponsored staff of the Registry Department of the University to attend the lecture and acquire knowledge that would enhance their administrative skills and move the University forward.

This is in line with the University's strong belief in the importance of human capacity and skill development.

The Lecture titled “Building an Excellent and Sustainable Administration in the Midst of Global Dynamism” was hosted by the Registrar of the University of Ilorin, Dr. M. A. Alfanla (FCIML) and Professor Wahab Egbewole, the Chief Host.

The lecture emphasised the importance of record management as a vital skill that Registry Staff must possess. It, as well as, reiterated that mentoring and succession planning in the University will help a University maintain its stand of excellence, organization, competence and accessibility to the public.

The book titled “Registry Seminar Papers” Volume 2 was launched at the event and five (5) copies were procured by FUHSI Management for the use of Registry staff and FUHSI Library.

THE UNIVERSITY'S PERMANENT SITE, A LANDMARK ACHIEVEMENT

The Professor Akeem Lasisi's led management of the Federal University of Health Sciences, Ila-Orangun, has made a milestone with the siting of time-tested edifices on the University's permanent site. In this piece, FUHSI Bulletin takes you through these landmark achievements.

The University Library

The first phase of the University Library which was funded through the 2023 TETFund Annual Intervention has been completed.

The Project which started on the 20th of February, 2023 was handed over to the University on the 10th of June, 2024.

The newly completed Library is a fully equipped resource hub for students and staff. This state-of-the-art facility will enhance global best practices in medical research, foster intellectual competitiveness, and boost information services for the University's community.

The Multi-Disciplinary Research Laboratory

The Multi-disciplinary Research Laboratory is a strategic edifice that is important for the promotion of research in the University.

Funded under the 2023 Capital Appropriation, this cutting-edge facility was launched on the 3rd of August, 2023, and officially handed over to the University management on the 10th of June, 2024.

The Multi-disciplinary Research Laboratory is a facility that will commit to fostering scientific innovation and discovery among University students and staff.

With access to this laboratory, students can explore topics from diverse angles, cultivating critical thinking, and developing their unique perspectives and opinions.

Perimeter Fence and Security Gatehouse

The completed Perimeter fence and Security Gatehouse were funded under the 2023 Capital Appropriation.

This project commenced on the 17th of July, 2023 and was handed over to the University on the 25th of April, 2024, with a Project Vehicle, a Black Toyota Corolla Model 2016.

The perimeter fence is a security measure put in place to ensure that the University campus is secured against aggression and wanton intrusion.

This will enhance monitoring, compliance, and psychological well-being, of the University environment.

As Universities are crucial to society's future, FUHSI prioritises making security fencing a vital investment as this is believed to create a secure and welcoming environment.
